

Home

*we're all living on the same world
we all share the water and air
there's plenty of room for all living creatures
we all make this planet our home

living underground, living in the trees
under the water, flying with the breeze
everywhere you look, everywhere you roam
it's somebody's home*

birds fly through the air, fish swim in the sea
deer run through the forest, squirrels climb up the trees*

bm-f#-g-d
bm-f# g-a

schools of fish, flocks of birds
cattle and horses all live in herds
colonies of bats, colonies of bees
colonies of ants are all families*
