

Where Did Natalie Hide (c) 2007 Hans Mayer

Where did she go little guy - where did Natalie Hide
Do you think we might discover that's she's under neath the covers
Where did she go little guy

You count I hide - that's what she said
You count I hide - then jumped right off the bed
Where did she go little guy - where did Natalie Hide
Give the covers a tickle and listen for a giggle
Where did she go little guy

Where did she go little guy - where did Natalie Hide
Is she in the cupboard hiding from her mother
where did she go little guy
You count I hide - that's what she said
You count I hide - then jumped right off the bed

Where did she go little guy - where did Natalie Hide
Is she on the stairs or underneath the chair
Where did she go little guy
You count I hide - that's what she said
You count I hide - then jumped right off the bed

Where did she go little guy - where did Natalie hide
I counted up to ten - She yelled do it all again
Where did she go little guy
