

## **Just A little Hug**

By Hans Mayer & Frank Gosar Copyright 1996 Myther Music

My nose is running buckets and my throat is scratchy too  
It's just my kind of luck I've got the latest kind of flu  
My forehead's hot and feverish, I hate to feel this way

### **chorus**

Oh, just a little hug, just a little hug, just a little hug  
Would make my day  
Just a little hug, just a little hug, just a little hug  
Would make my day  
It's a way to say I love you, it's o-k to say I love you  
Just a little hug goes a long, long way

Mom is in a panic cause the car broke down today  
She's calling the mechanic and she's scared of what he'll say  
It cost a lot of money, that she doesn't want to pay

### **chorus**

Oh, just a little hug, just a little hug, just a little hug  
Would make her day  
Just a little hug, just a little hug, just a little hug  
Would make her day  
It's a way to say I love you, it's o-k to say I love you  
Just a little hug goes a long, long way

Carl the cat is shaking cause he's way out on a limb  
The neighbor's dogs are making life a little hard on him  
I finally got him down that tree, where he's been stuck all day

### **chorus**

Oh, just a little hug, just a little hug, just a little hug  
Would make his day  
Just a little hug, just a little hug, just a little hug  
Would make his day  
It's a way to say I love you, it's o-k to say I love you  
Just a little hug goes a long, long way

So when Dad is comes home grumpy, or your sister skins her knee  
Mom is feeling jumpy or your cat is up a tree,  
Or your teacher's cross and crabby just remember what I say

### **chorus**

Oh, just a little hug, just a little hug, just a little hug  
Would make their day  
Just a little hug, just a little hug, just a little hug

Would make their day

It's a way to say I love you, it's o-k to say I love you

Just a little hug goes a long, long way
